

Dear Parent/Guardian,

If your child has an allergy, intolerance or other special dietary requirement, please could you kindly complete the enclosed photo record sheet and provide this to the school catering team. This will be discretely displayed behind the service counter, to assist the catering team in identifying your child during service.

The school catering team record allergen information for all dishes on the menu and can advise your child on the presence of these. This includes the 14 key allergens as stated within the Food Information Regulations (cereals containing gluten, milk, egg, soya, celery, lupin, fish, sesame seeds, sulphites, mustard, molluscs, crustaceans, nuts and peanuts).

It is the policy of Autograph to provide students with special dietary requirements the opportunity to enjoy safe and suitable school meals. **Please kindly remind your child to notify the catering team of their dietary requirement before ordering their meal, so that they can assist them in making a safe and suitable meal choice.**

If you have any queries, please do not hesitate to get in touch with your local Autograph office.

Kind regards,

Amy Glass BSc (Hons) ANutr.
